

Education

- 2025 **Ph.D.** Human-Centered Computing, Clemson University (Advisor: Guo Freeman)
2021 **M.A.** Communication, Technology, & Society, Clemson University
2017 **B.S.** Psychology, Minor: Global Politics, Clemson University

Work Experience

- Smmr. 2025 **Clemson University, Office of University Compliance and Ethics, Graduate Worker**
Worked alongside CPO to develop university policies for HIPAA compliance and AI use.
- 2022-Now **Clemson University, School of Computing, Graduate Research & Teaching Assistant**
Lead Ph.D. student researching harassment against minorities & harassment mitigation in social VR. Assists in instruction for high-level HCC and CPSC courses.
- 2021 **Clemson University, TRACE Research Group, Graduate Research Assistant**
Researched human-artificial intelligence (AI) collaboration, focusing on bias mitigation.
- 2019-2021 **Clemson University, Dpt. of Communication, Graduate Teaching & Debate Assistant**
Independently taught courses & coached internationally competitive collegiate debate.
- 2017-2019 **Dority & Manning, P.A., Intellectual Property Specialist & Junior Legal Assistant**
Change management specialist facilitating over 500 national & international patent cases for Fortune 500 company.

Research Accomplishments

- 8 Journal Articles, 6 in High-Ranking Computing Journals (3 First Author Papers)
- 8 Conference Papers in High-Ranking Computing Venues (2 First Author Papers)
- 6 Best Paper Nomination Awards at High-Ranking Computing Conferences (3 First Author Papers)
- 2 Distinguished Dean & University Fellowships in Engineering, Computing & Applied Science

Research Interests & Skills

- Interests:** Human-AI Collaboration, AI in the Workforce, Women in the Workforce
- Methods:** Experimental Design, Interviewing, Focus Groups, Usability Testing, Survey Design, Observation, Affordance Design, A/B Testing
- Analysis:** ANOVA, Linear Mixed Effects Modeling, Grounded Theory, Thematic Analysis
- Tools:** Qualtrics, Prolific, R, Stata, SPSS, Figma, LexisNexis

Project Experience Highlights

Mitigating Online Risks: Designing Social VR to Prevent New Forms of Online Harassment

National Science Foundation, PI: Guo Freeman, \$399,785

Lead Ph.D. student responsible for leading interviews, quantitative survey design, data analysis, & paper writing.

Promoting Human Interpretation & Interaction to Mitigate Bias in Artificial Intelligence Assisted Decision Aids

Office of Naval Research, PI: Nathan McNeese, \$444,368

Ph.D. student responsible for leading interviews, experiment design, data analysis, & paper writing.
